The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply							
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Shelly (US 4,558,893).
- Re claims 1-2: Shelly discloses a height adjustable lamp having an inner tube (12 in Fig. 1), an outer tube (10), a means (18) for fastening the inner tube to the outer tube, a lamp head and a base, an electrical cable (W), wherein the inner tube is slidably received in the outer tube (See Fig. 3).

Claim Rejections - 35 USC § 103

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 5. Claims 4, 11-14, and 16-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shelly in view of Lu (US 6,701,578 B1).

Re claims 4, 11-14, and 16-17: Shelly does not disclose that the fastener has plural inward claws and the sleeve has an inclined surface. However, Lu teaches a fastener having plural inward claws (the inward claws in 161 in Fig. 1) and an inclined surface of a sleeve (the inclined surface

Application/Control Number: 10/662,351

Art Unit: 2875

of the sleeve 162 in Fig. 1). It would have been obvious to one having ordinary skill in the art at

the time of the invention to substitute Lu's fastener and sleeve with Shelly's fastener and sleeve

in order to provide more secure engagement between the fastener and the sleeve. Lu, further,

provides a positioning device (14). Furthermore, Lu's outer tube is of a polygon shape.

6. Claims 3 and 15 rejected under 35 U.S.C. 103(a) as being unpatentable over Shelly as

applied to claims 1 and 11 above, and further in view of Porter et al. (US 6,875,924 B2).

Re claims 3 and 15: Shelly does not disclose the electrical cable is of a spiral shape. Porter

teaches a spiral electrical cable in a tube (Fig.2). It would have been obvious to one having

ordinary skill in the art at the time of the invention to substitute Shelly's electrical cable with

Porter's spiral electrical cable in order to allow full freedom of direction of the electrical cable in

either direction.

Allowable Subject Matter

7. Claims 5-10 are allowed.

8. The following is an examiner's statement of reasons for allowance: With regard to

independent claim 5, the prior art of record, Shelly and Lu, fails to disclose a height adjustable

lamp, configured as claimed, wherein an outer tube having an elongated rail therein, said

elongated rail engaging with said positioning device for preventing said inner tube from rotating

in said outer tube. Claims 6-10 depend from claim 5. Therefore, claims 5-10 are patentable over

the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the

payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Application/Control Number: 10/662,351

Art Unit: 2875

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Guiyoung Lee whose telephone number is 571-272-2374. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra O'Shea can be reached on 571-272-2378. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
